Internationally recognised yoga instructor certification

The Kundalini Research Institute (KRI) is a non-profit corporation established in 1972 which certifies the Level 1, 2 & 3 Aquarian Teacher programs. The International Kundalini Yoga Teachers Association (IKYTA) was established in 1994 to spread these transformational teachings through the united efforts of Kundalini Yoga teachers worldwide.

KRI, IKYTA and 3HO are organisations initially founded by Yogi Bhanjan, who passed away in 2004, and are now carried forward by teachers and trainers who continue to develop, serve and spread the integrity of the teachings in alignment with the consciousness of the Aquarian Age.

The program is open to students who are ready to become teachers and to those who wish to just immerse themselves in the spiritual and yogic science of Kundalini Yoga.

KRI Level One Aquarian Teacher Training starts 7-8 March 2026

The intention of the training is to best serve everyone towards their own elevation while maintaining a practice of care that takes into account individual wellbeing and wellbeing of the group.

CONDITIONS FOR COMPLETION OF THE COURSE

STUDENTS MUST FULFIL THE FOLLOWING CRITERIA TO COMPLETE THE COURSE AND RECEIVE CERTIFICATION:

Fee: If you are on a payment plan, full payment of course fees to be made by or on the 4th training session. You will be able to catch up any missed modules on any KKS training (room space allowing) for no extra charge outside of the Glastonbury course fee, unless it's a residential with costs for meals and accommodation. The organisers withhold the right to refuse attendance if payments are behind.

Attendance: Students must attend the required teaching sessions including the full 5 Day Immersion. Exceptional or special circumstances may result in a trainee completing the course by attendance at future KY teacher training programmes. Note: maximum length of training to receive certification is 2 years from the start date – which provides the opportunity to catch up on missed weekends in the first year and to complete course requirements.

Meditation Day: In addition to the course criteria described below, the student is required to attend one full day of meditation (not included in the course fee). Dates for this will be given at the beginning of the training.

Attending outside KY classes: Students are required to attend a minimum of 20 Kundalini Yoga classes during the training. These must be taught by a KRI qualified Kundalini Yoga instructor and also not a teacher still in training. A list of recommended teachers will be given to you once you have enrolled for the training.

Evaluation of the Student: The final evaluation of the student for completion of the course will be based on completion of the above criteria as well as the Tutors' general evaluation of:

- The student's involvement with the course (including leading yoga sessions/ practicums on the course)
- General grasp of the practical material
- Commitment to the Code of Ethics & Professional Standards for Kundalini Yoga Teachers
- Satisfactory completion of exam and course work (see below)

Evaluations may include an individual interview between the student and Tutors during the Ashram Experience.

Exam and Course work:

- Pass a satisfactory grade in the written or home exam
- Design two separate course curricula (10 week beginners course and a 5 week specialist course)

Evaluation of Tutors: The student is given the opportunity to complete a brief confidential evaluation form for each or any of the KRI Tutors on the course. These will be submitted to the head office of the Kundalini Research Institute (KRI).

On completion: The student will obtain the KRI Level One Kundalini Yoga Instructors Certificate. This course is approved by the Kundalini Research Institute (KRI) and qualifies the teacher for registration as a member of the national Kundalini Yoga Teachers Association (KYTA UK) and the International Kundalini Yoga Teachers Association (IKYTA), which include internet listings and other professional benefits. It is an internationally recognised teaching certificate.

Teaching public classes before certification including insurance for trainee instructors:

After teaching a practicum on the course, or upon special request, teachers in training may request a letter confirming their attendance on the training if they have the opportunity to teach public classes. It is the responsibility of the trainee teacher to obtain appropriate insurance for any teaching outside of the training (which the team can recommend). Trainee teachers must be clear in any advertising that they are not yet fully qualified but are in the process of completing an internationally accredited certification course. The training team is not obliged to negotiate public classes on behalf of trainee teachers but will offer constructive feedback through practicums, weekend themes addressing the practicalities of teaching, supervising peer group meet ups, interaction with guest speakers and we encourage everyone to find their way of serving the teachings and serving humanity through the teachings.

"Why are you becoming Teachers? Because it is the highest status in a human life. It is elegant, it is excellent and it is very, very, very, very, very fulfilling."

Kundalini Yoga is a **Raj Yoga** that is rooted in ancient yogic science, philosophy and spiritual texts. In 1969, Yogi Bhajan brought Kundalini Yoga more widely to the West in a synthesised form of a householder's dharma to be transmitted through experience - practical, inclusive, efficient, transformational and relevant for the times - and for others to carry these teachings forward into the Aquarian Age for the upliftment of humanity.

Kundalini Yoga is also known as the **"Yoga of Awareness"**. It is a path of self-initiation, of the awakening soul and consciousness, aligned with each person's destiny.

Central to the practice of Kundalini Yoga is the experience and impact of yoga on the mind, body and spirit through the **kriyas** (specific sequences of postures), **meditations** and **mantras** (transformation through the sound current or Naad), which will be explored throughout the course and within the context of both the historical roots of yoga and in recognition of the ongoing, continued legacy of the teachings through us all, as teachers, into the Aquarian Age.

The content delivered through the training includes a diverse range of topics from the yogic perspective to support wellbeing and truthful living. In addition to the 9 training weekends, the 5 day **Yoga Immersion** offers the opportunity to dive deeper into the teachings, living together in the consciousness of community and in relation to nature. Plus everyone will have opportunity to teach practicum classes with feedback from the trainer and support from the training group.

Alongside delivering the course content and certification requirements, the training has an emphasis on building peer groups and community networks so each person can establish their own journey of Truth and Service. There will be online support between training modules and the opportunity to practice teaching or sharing your inspiration on topics with your peers.

We recognise that each person will be touched, inspired and motivated differently through the diamond that is Kundalini Yoga and there isn't only one way to bring the teachings alive in your life or only one way to teach and share them with others. In past years, the training experience has been greatly enriched by the breadth of people joining from a range of cultures, religions, sexual orientation, gender identification, physical ability, age, profession and with an inspiring range of individual talents. So in this way, there is great encouragement for each person to find **their** way.

We also understand that these are the most challenging of times. And that many people feel drawn to the course because they recognise the practice is supporting a process of working through trauma or mental health challenges. These are areas we will touch on through the teachings. It can also be that through personal experience, someone feels touched to work or serve in these areas as a teacher, therapist, counsellor, which Kundalini Yoga effectively supports and complements.

While the training isn't able to offer 1-2-1 specialist therapy to trainees (although trainers may have specialist skills and could provide a professional service if approached independently), the organisers encourage and support everyone to develop a maturation of understanding their own process, identifying needs that may require support outside of the training, and to update us of changes to circumstances that may affect participation so we can appropriately respond and signpost as necessary. We commit to serving everyone so they can serve their own consciousness.

We look forward to being part of this exploration and adventure with you!
